### PRACTICE AREAS

Professional Liability

Product Liability

Cyber Risk & Data Security

Valerie Narcy specializes in the areas of product liability, medical malpractice, and professional liability, with emerging expertise in the fast-evolving field of data privacy and technology. Her background as a former plaintiff's attorney gives her a dual perspective that sets her apart as an advocate, enabling her to navigate cases from multiple angles for optimal results. Valerie's legal career is marked by success and leadership. Prior to joining Larson · King, she excelled as a personal injury trial attorney, managing over 110 cases. Her role extended beyond litigation, encompassing leadership in case strategy, individual and corporate depositions, and mentoring junior attorneys. Valerie's courtroom proficiency is further strengthened by her prior roles at the Hennepin County Attorney's Office and as a judicial law clerk for the Minnesota Second Judicial District, where she honed a deep understanding of trial strategy and courtroom procedure. Her work has garnered recognition from judges and peers alike, including a Spot Award from the Minnesota Second Judicial District and a Member of the Year honor from the Minnesota Asian Pacific American Bar Association (MNAPABA). Valerie has been honored with a place on the prestigious Top 40 Under 40 list by the National Trial Lawyers Association, recognizing her as one of the most promising and accomplished young attorneys in the nation. With a global perspective shaped by four years of studying and working abroad in France and South Korea, Valerie brings a culturally attuned and forward-thinking approach to her practice. Her unwavering commitment to quality is reflected in her dedication to clients and her well-earned reputation for diligence, integrity, and delivering results. Beyond her legal work, Valerie is a leader in the legal community, actively serving on the board of Minnesota Asian Pacific American Bar Association (MNAPABA). In her free time, Valerie enjoys traveling and trying new foods, learning languages, and staying at the cutting edge of developments in technology and gaming.
